

**STATEMENT OF CANDIDATE FOR  
COUNCIL MEMBER CITY OF CALEXICO**

**JOONG KIM**

**Occupation:**

**Education and Qualifications:** Dear Friends As a small business owner and homeowner in Calexico I will be your "watchdog" if you vote for me as a Council Member in City of Calexico. I want complete transparency to safeguard our financing, health, safety, and services to citizen needs. Having served as an elected official for both Calexico City Council and the Calexico School District. I have the experience in government issues and policies. The water bills in Calexico have been increasing and it has created a financial hardship for many seniors and families. It is well documented that Calexico is spending our public funds on too many attorneys, contractors, consultants and developers. I want to protect the rights of our tax payers and expose the questionable deals that the City has been involved with. My agenda: Cleaning government by investigative audit on City, financing, contracting process, and Council members activities on City Financing and others for personal gain to benefit special interest groups, more contracting for local jobs and no more special deals, senior rates program, lighting parks and street, lower water rates for residents, promote environmental, Bring grant for help needy citizens, and easy on locally own small business and employment.

Joong Kim
